HOLE IN ONE POLICY

Introduction:

The club will insure financial members for hole in one 'shouts'. This is to the maximum value of \$100 and is recognised at any golf club affiliated to New Zealand Golf.

Objectives:

To enable members to celebrate with fellow golfers and friends the occasion of a memorable event.

Guidelines:

1. The hole in one must be attested by at least one other witnessing player, preferably two.
2. To be recognised as a 'Club shout' it must take place in an official organised competition.
3. The 'shout' can only be spent on the day of the event at the Club or if the Club is closed for any reason on production of the receipt for one 'shout'.
4. If not in an official competition it will be only recognised by the club by way of notification on the hole in one board.
5. Bar staff will attend to the arrangements after approval is given from a club official.
6. If a Harewood member achieves this feat elsewhere, then the club will reimburse that person for a 'shout' at one venue up to a maximum of \$100 on production of a receipt for expenses, in addition to the attested card.
7. All Harewood members who hole in one will have their name recorded on our Honours Board.
8. The round does not have to be completed for hole in one recognition.

GOLF COMPETITIONS AND HOW THEY ARE PLAYED.

Stroke (Medal): The total number of strokes taken plus any penalty strokes is entered on the scorecard, totalled at the end of the round and the players full handicap deducted. The competition will be for gross score or for nett score after handicap has been deducted.

Par: Entered on the scorecard the same way as for stroke play but the result of each hole is marked in the column provided with a "+" for a win, an "O" for a half and a "-" for a loss after allowing for handicap stroke.

Stableford: Score of the hole is entered on the card in the same way as for stroke, then stableford points are entered in the column provided for the NETT score on the hole after allowing for handicap strokes (if the player is in receipt of one or more as shown by the stroke index on the card). Points awarded on the nett score are: 1 for one over par, 2 for par, 3 for one under par, 4 for two under par, 5 for three under par. At the end of the round the points are totalled to give the players score for the round.

International Stableford: Scoring is based on your nett score on each hole, with points awarded or subtracted as follows: Double eagle, 8 points; eagle, 5 points; birdie, 2 points; par, 0 points; bogey, -1 point; double bogey or worse, -3 points.

Bisque: A par or stableford competition where strokes may be taken up to the limit of the player's handicap at any hole, at the player's discretion before teeing off at the next hole.

Four-ball Stroke: Two players play as partners; each has strokes as indicated on card. Enter both gross scores and best net score of partners on the card. Indicate whose score is used at each hole.

Four-ball Par: Two players play as partners, each taking strokes at holes as in par competition. If one partner wins hole and the other halves it, only the win is recorded. If one halves the hole and the other loses it, only the half is recorded. Indicate whose score is used at each hole.

Foursomes: Two players play as partners and use one ball. The partners play alternatively from the tee and thereafter alternatively during the play of each hole. Handicap allowance is exactly half of the combined.

Canadian Foursome: Both players play the tee shot at every hole and afterwards play alternate shots with whichever ball they nominate. The nominated ball is to be played by the partner, not the owner of the ball.

Handicap is 40% of combined handicaps.

American Foursome (Yankee): Both players play tee shots then play the second shot with their partner's ball. One ball is selected and play proceeds with alternate shots with the owner of the ball selected playing the third shot. Partner with lower course handicap receives 60% of course handicap. Partner with higher course handicap receives 40% of course handicap. Add together, then round off the total.

Greensome: Both players play tee shots and second shots at each hole. One ball is selected and play proceeds with alternate shots. The third shot must be played by the partner, not the owner of the ball. Partner with lower course handicap receives 60% of course handicap. Partner with higher course handicap receives 40% of course handicap. Add together, then round off the total.

Ambrose: Teams consist of up to six players. All players tee off, one shot is selected and the other players, after retrieving their ball, drop it within one club length of selected ball (no nearer the hole) through the green, or within 25 centimetres (placed - no nearer the hole) on the greens until the hole is completed. Only one score is entered on the card. Handicap allowance is determined by number in team. Ladies full handicap, own tees, men's card. When playing in sixes the owner of the ball selected does not play that shot. Note there are many variations to this game.

Hartball Ambrose: Instructions and score sheet will be supplied for game, 4 to 6 person teams

Irish Stableford: Individual game: scoring normal stableford points on holes 1 - 6, x2 points on holes 7 - 12 and x3 points on holes 13 - 18.

Hidden Holes: Round is played and entered in regular stroke or stableford format with the scoring holes for the competition being determined by the Pro Shop upon completion.

Yellow/Coloured Ball Stableford: Played in teams of three or four with each individual scoring their round in normal stableford format. Playing order is determined on the first tee with each player taking it in turns to play the "yellow ball". The team score per hole is the Yellow Ball plus the better ball from the rest of the team. If the Yellow Ball fails to score a stableford point, the team score for the hole is zero.
